Introduction

Text of the article – up to 30 000 printed characters. Papers submitted for publication should highlight the following aspects: the aim of the scientific research, methodology, the state of the research of the analyzed problem, evaluated and validated research results, conclusions, references.

The text of the article should be font sized 12 point (Times New Roman) 1,5 lines-spaced, justified. The first lines of the second and the rest of paragraphs should be indented 0,7 cm.

References in the body of the text are to be made by providing the following information in parentheses: the last name of the author, followed by the year of publication, the page(s) referred to, e.g.: (Author 2014, 22) or (cf. Author et al. 2013, 103–105). If letters of Slavic or some other non-Roman script are used, the names and titles should be transliterated.

(1) *Examples under analysis are provided in italics and numbered throughout the text in parentheses.*

Descriptions and remarks should be provided in footnotes at the end of the page of the main text (Times New Roman font size 10 point, continuous numbering)

If the citation is longer than 2 lines, it has to be separated from the main body of the text as an autonomous paragraph with increased indent (1,27cm from both sides, single line spacing), separating it from the main body of the text with interval 10pt. The citation is written in Times New Roman, font size 10. First line indented by 0,7cm.

Tables and schemes can be colourful and should be numbered and titled:

Table 1. Title Times New Roman font size 10 point italic. Written at the top of the table.

Figure 1. Title Times New Roman font size 10 point. Written at the bottom of the figure.

Text in tables and schemes should be single line-spaced, font size 10 point.
